Editorials

121 Is global dietary change an effective strategy to curb climate change?
J Bradfield, H Trigueiro, S Ray

123 Building on what we know: moving beyond effectiveness to consider how to implement, sustain and spread successful health interventions
C Laur, L Ball, H Keller, N Ivers

126 Opportunities for innovation in nutrition education for health professionals
C Nowson

129 Nutrition is key to global pandemic resilience
B E Birgisdottir

Original research

133 Association between plant-based diets and blood pressure in the INTERMAP study
G Aljuraiban, Q Chan, R Gibson, J Stamler, M L Daviglus, A R Dyer, K Miura, Y Wu, H Ueshima, L Zhao, L Van Horn, P Elliott, L M O Griep, for the INTERMAP Research Group

143 Empowering local communities to make lifestyle changes: is the Health Mela a potential solution?
J Watson, R Satyan, R Gupta, M Myers, R Campbell, E Macphie

151 Relationship between maternal body composition during pregnancy and infant’s birth weight in Nairobi informal settlements, Kenya
M N Wanjohi, I Ogada, F M Wakesah, C Khayeke–Wandabwa, E W Kimani-Murage

162 Contrasting prenatal nutrition and environmental exposures in association with birth weight and cognitive function in children at 7 years
C Gennings, A Wolk, N Hakansson, C Lindh, C-G Bornehag

172 Preventable causes of cancer in Texas by race/ethnicity: insufficient physical activity
F J Guderkauf, A P Thift

180 Modification of vitamin B6 on the associations of blood lead levels and cardiovascular diseases in the US adults
J Wei, J S Ji

188 Lifestyle medicine for type 2 diabetes: practice-based evidence for long-term efficacy of a multicomponent lifestyle intervention (Reverse Diabetes2 Now)
G K Pot, M CE Battjes-Fries, O N Fatijn, N van der Zijl, H Piijl, P Voshol

196 Role of food aid and assistance in addressing the double burden of malnutrition in Ghana: a qualitative policy analysis
N M Torto, K D Brownell

205 Effect of the COVID-19-induced lockdown on nutrition, health and lifestyle patterns among adults in Zimbabwe
T M Matsungo, P Choper

213 Rationale and description of a lifestyle intervention programme to achieve moderate weight loss in women with non-metastatic breast cancer: the lifestyle intervention part of the SUCCESS C Study
D Hauner, B Rack, T Friedl, P Hepp, W Jaani, H Hauner

220 Alcohol consumption and fruits and vegetable intake among older adults in Ghana: a cross-sectional survey based on WHO-SAGE Wave 2 data
K Tachi, J Tetteh, A E Yawson, A Agyei-Nkansah, T Archampong

229 Adherence to dietary and physical activity guidelines among shift workers: associations with individual and work-related factors

239 Farming for life: impact of medical prescriptions for fresh vegetables on cardiometabolic health for adults with or at risk of type 2 diabetes in a predominantly Mexican-American population
D Kerr, S Banaw, N Glantz, C Connelly, M Kujan, W Bevier, A Laree, A Sabharwal
